🌐 <https://centurionnft.io/>

INTRODUCTION

Building the future NFT that will provide you with non-ending benefits that can be passed down to future generations, assuring your financial security for today and the future.

<https://centurionnft.io/>

MISSION

**"Providing financial security and
non-ending benefit to loyal
holders"**

VISION

**"Build the world's most profitable
and secured NFT "**

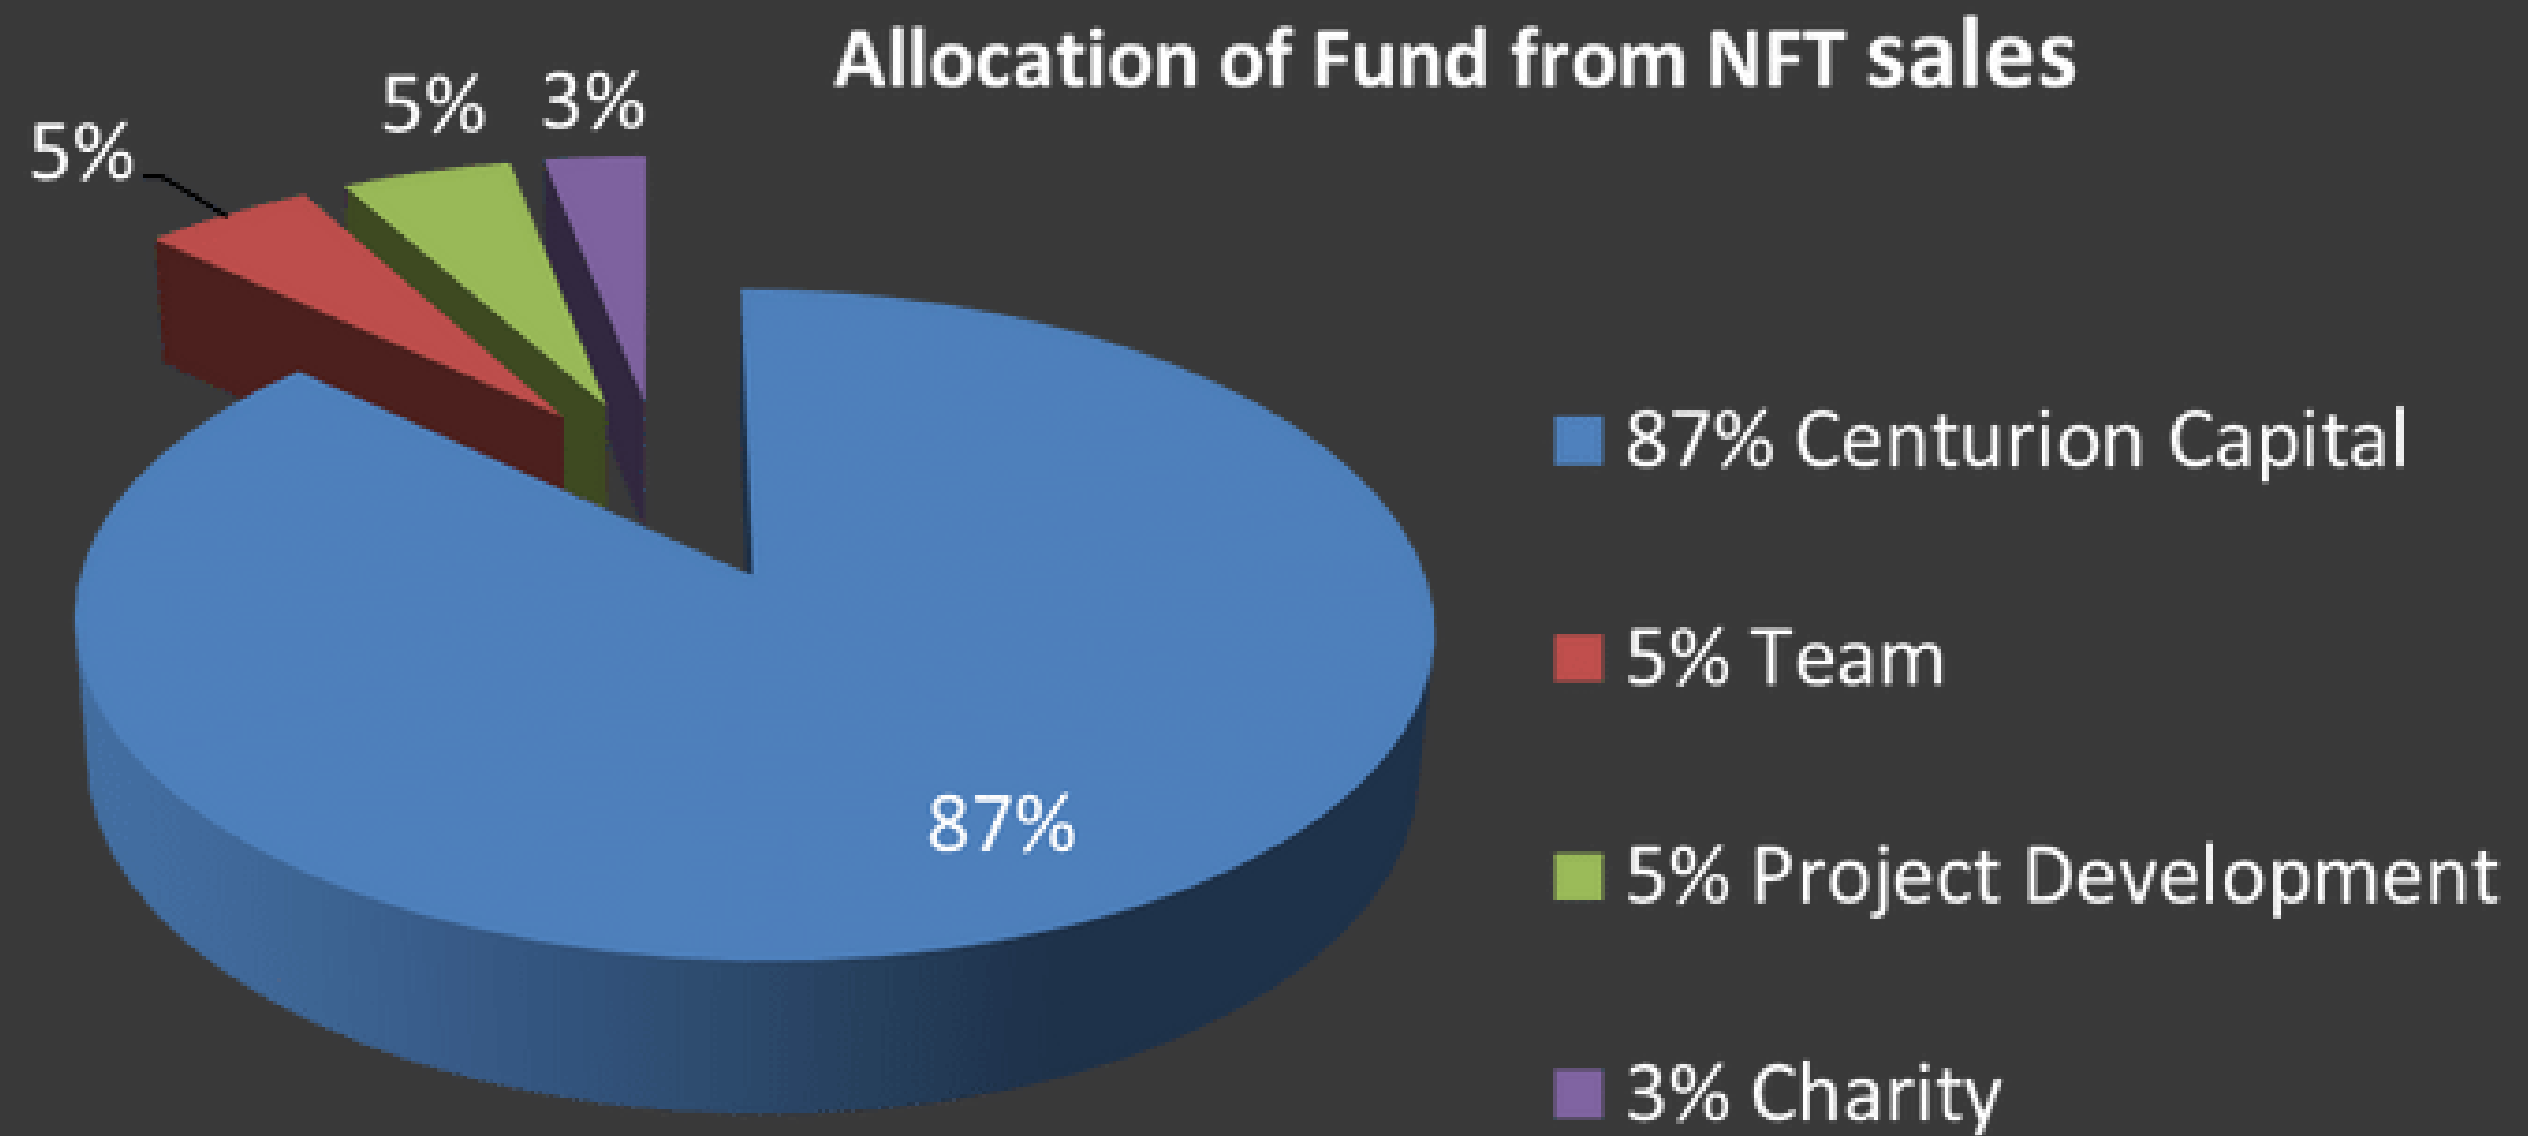

NFT

During classical antiquity, a centurion was the nominal commander of a century, a military unit of approximately 80 legionaries. They received a much higher rate of pay than the average legionary. The Centurion's comradeship together with its horse inspired our NFT.

TEAM

Centurion NFT is made up of professionals from various fields such as web engineering, finance, artists, and crypto currency enthusiasts. They are committed to establishing this community in order to assist everyone that comes in. The Team will get 8% from NFT sales and 5% of the Centurion Capital income since they founded the Centurion NFT.

PROJECT DEVELOPMENT

One of the project's primary goal, is to ensure that every holder benefits from their trust in the project. The team has set aside funds for the necessary expenditures, particularly for the development of the website and future initiatives that will generate revenue and will be used to fund holders with loyalty reward.

CHARITY

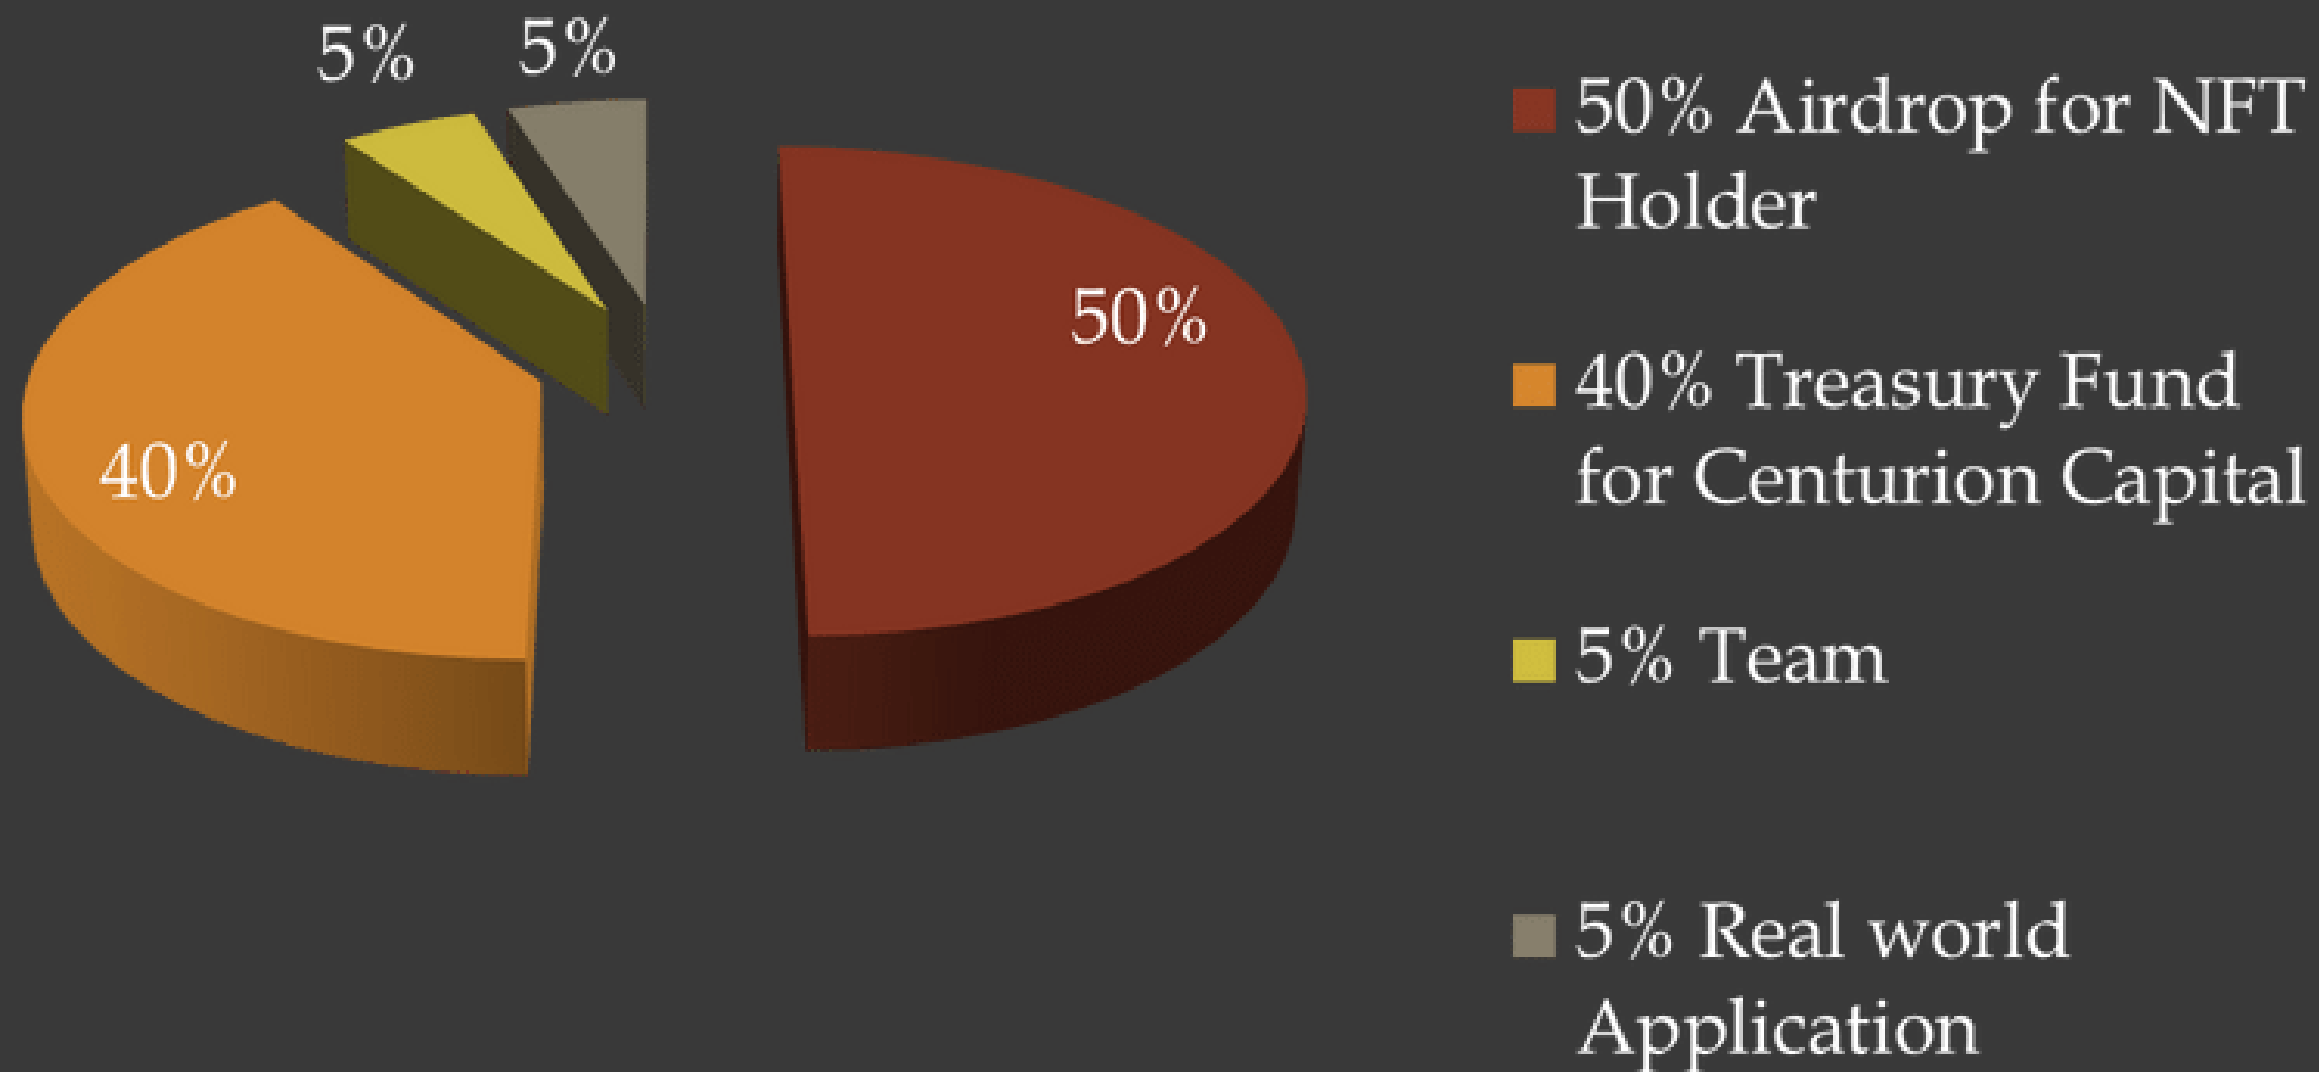

We allotted a certain amount of funds for charity as we are committed to providing assistance to individuals in need, especially now that calamities are occurring in many regions of the world but there is no indication when they may occur.

CENTURION CAPITAL

CENTURION CAPITAL is the Centurion's one-of-a-kind weapon for growth and strong community. It serves as a conduit for all NFT holders to receive airdrops, which is through a comprehensive assessment of high-potential start-up tokens in the global market. We will allocate 87% of the funds from the sales of all sold NFTs to Centurion Capital, held by the team, and it will be invested in high-potential tokens, and 50% of each transaction will be given to all NFT holders.

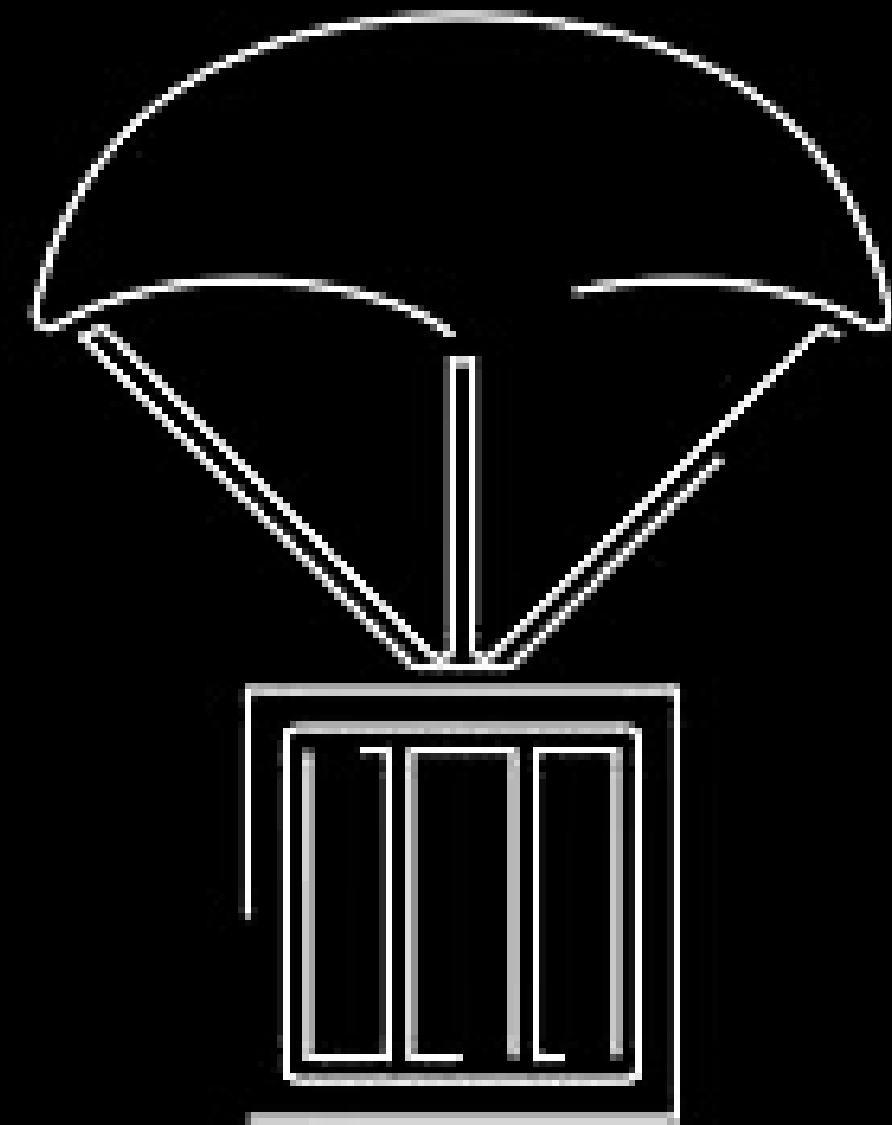

Distribution of Acquired Token from the Centurion Capital Investment

- 50% of Coin/Token acquired through Centurion Capital investment will be airdropped to all NFT holders.
- 40% of Coin/Token acquired goes to Centurion Capital Treasury and will be used in reinvestments to another potential project.
- 5% will be split into two parts. One part goes to the Centurion Team and the other one goes to the Centurion Capital Research Team.
- 5% will be used for funding the real world project that will generate revenue to sustain the Treasury of Centurion Capital and the whole ecosystem.

AIRDROP AND REWARDS

We will provide an airdrop or free token to NFT holders. The amount they will receive is proportional to the quantity of hold NFTs . If there are more NFTs, more tokens will be distributed. For example, if Centurion invests 1,000,000 tokens, 50%, or 500,000, will be distributed equally to 4,444 NFT holders (150 tokens per NFT). In other words, if you have two NFTs, you will be given 300 tokens. The rewards will be given to the community, so regularly check on the website and the Twitter account for rewards updates..

◆ SAMPLE COMPUTATION

ALEPH ZERO

1,000,000 / 2 = 500,000 → Centurion Capital Treasury

NFT Holders → 500,000 / 4,444 = 112.5 → Per NFT

Current price → 112.5 X \$0.77 = \$86.625

4/15/22 → 112.5 X \$3.06 = \$344.25

SOLANA

1,000,000 / 2 = 500,000 → Centurion Capital Treasury

NFT Holders → 500,000 / 4,444 = 112.5 → Per NFT

Current price → 112.5 X \$32.24 = \$3,627

11/6/21 → 112.5 X \$258.93 = \$29,129.625

REAL WORLD PROJECT

Building websites and mobile applications with the main purpose of resolving problems in the engineering industry, which will then generate revenue that will be added to Centurion Capital and distributed to loyal holders via airdrop.

This real-world project will help in the long-term viability of Centurion Capital and the entire ecosystem, allowing us to accomplish our mission of "Providing financial security and none-ending benefit to loyal holders."

NFT HOLDERS BENEFIT

- Exclusive rights from his/her NFT.
- He/She can receive an airdrop of token from different potential projects that we will be investing.
- Selling NFT in a bigger price—due to high demand and future airdrops which are given benefits to NFT holders.
- Exclusive Discount on NFT/s from partners.
- Priority access to any project events and promos.
- Can earn from Centurion's future project development, such as, its "Real World Application project."
